### CREATIVE CUTTING AND COMPLIMENTARY COLOUR: MODERN TEXTURE

On this course, we will look at the current trend showing up in collections across Europe where texture is king. In this current evolution hairdressers are using hard lines and fabricated volume to create new looks.

We will show how to use new texturizing and disconnection techniques to create more volume and add interest to standard haircuts. Using everything in the stylist's toolkit we will create new shapes and improve on existing ones. We will focus on shorter hair lengths but mid-length curly and straight hair will also be transformed. This is your opportunity to get your scissors out and go a bit wild, to try texturizing techniques you've been too afraid to try before.

Throughout the course we will show time saving colouring techniques that will enhance the cuts and maximise your salon revenue.

Price: 2 Days/290€\*
